Roll 3 dice. Put them in order from smallest to largest on your chart. Take a chenille stem to represent the length on each of the dice. Can you form a triangle with the stems? Do this 10 times.

| Roll Number | Dice Rolls |  |  | Do they form a triangle? |
| :---: | :--- | :--- | :--- | :--- |
| 1 |  |  |  |  |
| 2 |  |  |  |  |
| 3 |  |  |  |  |
| 4 |  |  |  |  |
| 5 |  |  |  |  |
| 6 |  |  |  |  |
| 7 |  |  |  |  |
| 8 |  |  |  |  |
| 9 |  |  |  |  |
| 10 |  |  |  |  |

In your notebook, make a conjecture about the sides of a triangle based on your observations above.
